WASHINGTON SENTINEL.

VOL. 3.

DAILY.

NO. 149.

CITY OF WASHINGTON, THURSDAY MORNING MARCH 22, 1855.

PROSPECTUS

"WASHINGTON SENTINEL." PROPOSE to publish in the city of Washing ton, in September, a political newspaper, un ir the name of the WASHINGTON SENTI

NEL.

In doing so, it is proper I should make known the principles it will maintain, and the policy it will advocate.

It will support cordially and earnestly the principles of the Democratic party of the United States it does not propose to be the organ of any Depart ment of the Government, except in so far as an in dependent maintenance of the doctrines of that party may represent its opinions and express its views.

It will not be ambitious to commend itself to the people by a blind flattery of their rulers. It will seek public support by the bold avowal of the sentiments which are common to the genuine Democracy of the Union, and by the condemnation of all such as may conflict with them, from whatever quarter they may come. It will seek to be (and it will endeavor to deserve the title) the organ of the Democratic party of the United States.

States.

The SENTINEL will maintain, as a fundamenta truth of that great party, that the States formed the Union between them by the ratification of the Constitution as a compact; by which, also, they created the Federal Government, and delegated to it, as their common agent, the powers expressly specified in it, with an explicit reservation of all others to the States, or to their separate governments. The exercise of any powers beyond these thus delegated, is, therefore, an usurpation of the reserved authority of the States by the agent of their own creation.

The SENTINEL will uphold and defend the Union upon the basis of the rights of the States—under the Constitution—and thus by sedulously guarding the latter, it will the more effectually strengthen and perpetuate the former.

With regard to the exercise of the powers of the

and perpetuate the former.

With regard to the exercise of the powers of the Feceral Government, the Sentinel will take as the iniciples of its action, that Congress shall exercise no power which has not been delegated by the C. ustitution, according to a strict and fair interpret tion of its language and spirit; and that it shall ne seek to attain indirectly an object through the exercise of constitutional power, for the direct attainment of which it has no delegation of power. In other words, all powers exercised must be clearly grated, and all granted powers must be used for no surpose, except such as is clearly intended by the Constitution.

In respect to the internal administration of the

In respect to the internal administration of the In respect to the internal administration of the Government, the Sentinel will sustain the settled policy of the L mocratic party. It will labor to inculeate this or dinal doctrine of Democratic in ternal policy:—t at this Government will best promote the freed in and prosperity of the people of the States, by being less ambitious to exercise power, and more anxious to preserve liberty; and by leaving to the individual States the management of all their domestic concerns—while it contents itself with guarding the confederacy from external violence, and directing the foreign policy of the country to the promotion of the common interests, and defence of the common rights, and honor of the States composing it. nor of the States composing it.

The States composing it.

The Sentinel will advocate such a progressive foreign policy as will suit itself to the exigencies, and correspond with the expanding interests of the country. That policy should be energetic and decided; but should temper firmness with liberality and make its highest ends consist with the strictest principles of justice. The real interests of the country, upon each occasion demanding attention will be its guide in the course the Sentinel will pursue.

The national policy of the world in this age is essentially aggressive. In the growing sense of weakness of some of the nations of the Old World, and the ambitious restlessness of others, a common motive to colonial extension has developed

Our settled determination to repel interference Our settled determination to repel interference from abroad with our domestic concerns, wil prompt us to avoid it in the affairs of other coun tries, unless by their foreign or colonial policy our peace should be threatened, our security endan gered, or our interests invaded. For when the selfish interests of other nations prompt a foreign or colonial policy which infringes upon our rights, and places in the pathway of our commerce a dangerous and unfriendly lival, such a policy must be resisted by remonstrance, and, if need be, by war. Our foreign policy should, indeed, be defensive

Our foreign policy should, indeed, be defensive; but to be properly defensive, it must sometimes be apparently aggressive. Our administration should be vigilant, watchful, and energetic. The world is full of important movements, commercial and political, deeply concerning American trade and American power. It is time we had an American foreign policy. We must have it. We cannot avoid it if we would. We have larger interests, and a greater stake in the world and its destiny, than every other people. We occupy the best portion a greater stake in the world and its destiny, than every other people. We occupy the best portion of a continent, with no neighbors but a colony, and a worn-out, anarchical despotism. We are the olny people whose own land, without colonial defendencies, is washed by the two great oceans of the world. Our agricultural productions are more varied and more essential to civilized life, and to numah progress—our mineral and manufacturing resources more vast—our facilities and capacity for internal and foreign commerce more extended than those of any other people living under one government. A continent, to a great extent, unexplored and exhaustless in its yet hidden wealth is at our feet. European trade seeks the great East through avenues which are at our doors, or must be made through our own limits. Europe, Asia, Africa, and the isles of the sea, lying all around us, look to us as the rising power, through the agency of whose example, and ever widening and extending, though peaceful influences, the bless ings of liberty, civilization, and religion, are destined to triumph over the barbarism and superstition of the millions of the world. And shall such a people refuse to lay hold upon their destiny, and act upon the high mission to which it is called? A mission so full of hope, though so laden with responsibility, which, if properly directed, must make our confederacy the harbinger of peace to the world, as well as the peaceful arbiter of its destiny.

destiny.

The Sentingle will, therefore, advocate a bold and earnest foreign policy, such as the condition of the country demands; but it will advocate it under the flag of the country—nowhere else. Its foreign policy must be consistent with the spotless honor and unimpeachable good faith of the country. To be respectable at home and abroad, and to be great in the eyes of the world, it must ask for nothing but what is right, and submit to nothing that is wrong. It must be liberal and magnanimous to the rights of others, and firm and immeveable in insisting on its own. It must, in fine, be true to its own interests, rights, and honor—it cannot then be false to those of other nations.

Such then is the chart by which we shall be

Such, then, is the chart by which we shall be ruided. Independent and free, we shall endeavor to be honest and truthful. The true friends of democratic principles we shall cordially support and defend. Its enemies in the field or in ambush we shall oppose, and on all proper occasions de

To our future brethren of the press we exten the hand of friendly greeting. The Sentinel is the rival of no press of its own party—the personal enemy of none of the other.

The present Democratic Administration has our est wishes for its success in the establishment o

heat wishes for its success in the establishment of the great principles upon which it came into power; and in its honest labors to attain such an end it will find the Senting its friend and coadjutor.
